

CEMS Release Notes v.29

Release 29 for the Comdata Expense Management System (CEMS) is available on 8/23, and includes the following enhancements:

- **Expand Equipment Cost Category Fields.** This item expands the Equipment Cost Code, Equipment Cost Type, and Equipment Cost Category fields to accept up to 20 characters. This change was needed as Viewpoint users could not export their entire equipment cost codes and have them reflected accurately in both Viewpoint and CEMS.
- **Resolve System Issues:** The following issues have been resolved:
 - Corrected an issue where the Transactions Coded with Receipt Images by Job report did not generate properly for some users
 - Corrected an issue where Phase codes were not syncing into CEMS due to spaces in the Phase data
 - Corrected an issue where Reference Numbers were not generated for Cash Only transactions in the Viewpoint accounting file

These items are scheduled to deploy Sunday, August 23 at midnight with no expected system downtime.

If you have questions about these new features or any other component of CEMS, please contact your Comdata Customer Relations Representative (CRR) at 1-800-749-7174.

You can also refer to the online CEMS user guide available through the **Help/Updates** link in the CEMS menu bar.
