

CEMS Release Notes v. 31.2

Release 31.2 for the Comdata Expense Management System (CEMS) is available on 11/4, and includes the following enhancements:

- **Resolve System Issues.** The following issues have been resolved:
 - Corrected an issue where if the Viewpoint accounting file contained only one transaction, the Invoice Number was not generated in the Header line.
 - Corrected an issue where Phase Codes, Job Numbers, and Company Codes were not displaying on the Coding screen for some Viewpoint users due to spaces at the end of each value.

These items are scheduled to deploy Wednesday, November 4 with no expected system downtime.

If you have questions about these new features or any other component of CEMS, please contact your Comdata Account Manager at 1-800-282-0012.

You can also refer to the online CEMS user guide available through the **Help/Updates** link in the CEMS menu bar.
